### JCSD BOARD OF DIRECTORS TOURS GROUNDWATER REPLENISHMENT SYSTEM PLANT

MIRA LOMA, Calif., August 6, 2009 – The Jurupa Community Services District Board of Directors recently toured the Groundwater Replenishment (GWR) System plant at Orange County Water District in Fountain Valley, California. The GWR System is the largest water purification project of its kind and has the capacity to produce up to 70 million gallons per day of near-distilled, high quality water.

Eldon Horst, JCSD General Manager said, “The JCSD Board of Directors is very interested in learning more about additional resources for drinking water that is personified by this innovative purification process.”

Founded in 1956, The Jurupa Community Services District (JCSD) is a public agency known as a Special District, governed by a five-member, elected, Board of Directors. JCSD is responsible for providing water, sewer and street lights for over 85,000 people and for maintaining more than 100 acres of parks and over 25 miles of frontage landscape in an unincorporated, 48-square-mile region of western Riverside County. For more information, visit the web site at [www.jcsd.us](http://www.jcsd.us).
