CUTLER NAMED ENGINEERING MANAGER

MIRA LOMA, Calif., August 28, 2009 – Don Cutler, P.E., was recently hired as Engineering Manager for Jurupa Community Services District (JCSD.) The Engineering Manager is responsible for the overall administration and management of the District’s engineering/project activities, including capital improvements, project design, environmental review and planning. Mr. Cutler will provide support to the Director of Engineering & Operations, Robert Tock.

Tock says, “Don brings over 18 years of experience in the areas of design and construction of water and wastewater facilities to the District. His combined technical expertise and proven management abilities represent a valuable addition to our team.” Mr. Cutler holds a Master of Science degree in civil engineering from Loyola Marymount University and a Bachelor of Science degree from California Polytechnic University, Pomona and is a Registered Professional Civil Engineer (P.E.) in California and Texas.

He recently worked as a senior project manager for the engineering consulting firm CDM in Southern California and Texas. Mr. Cutler’s local project experience includes the construction and design of the Orange County Water District Groundwater Replenishment System and the 60 MGD secondary treatment expansion of Orange County Sanitation District’s Plant No. 1. He previously worked as a project engineer with Black & Veatch where he assisted with the design and construction of a new pump station and pipeline of the Santa Ana Watershed Project Authority (SAWPA) and also worked with the Los Angeles Department of Water and Power.

Mr. Cutler is a member of AWWA (American Water Works Association) and WEF (Water Environment Federation). He also participated in several build projects for Habitat for Humanity in Houston, Texas.

Founded in 1956, The Jurupa Community Services District (JCSD) is a public agency known as a Special District, governed by a five-member, elected, Board of Directors. JCSD is responsible for providing water, sewer and street lights for over 85,000 people and for maintaining more than 130 acres of parks and over 25 miles of frontage landscape in an unincorporated, 48-square-mile region of western Riverside County. For more information, visit the web site at www.jcsd.us.
