

OCHOA NAMED JCSD ENGINEERING MANAGER

MIRA LOMA, Calif., JULY 28, 2010 – Nemesciano “Nem” Ochoa has joined Jurupa Community Services District (JCSD) as Engineering Manager. The Engineering Manager is responsible for the overall administration and management of the District’s engineering/project activities, including capital improvements, project design, environmental review, development and planning. Mr. Ochoa will provide support to the Director of Engineering & Operations, Robert Tock.

Mr. Tock says, “Nem has over 12 years of experience with planning, managing capital improvements and facility design. His background in the water industry will be valuable to JCSD as we move forward with our strategic plan.” Mr. Ochoa holds a Master of Business Administration degree and a Bachelor of Science degree from California State Polytechnic University, Pomona. He is a Registered Professional Civil Engineer, (P.E.) in California.

He recently worked for the Metropolitan Water District of Southern California in the Water Resource Management Group, where he was involved in preparing the Integrated Water Resources Plan, System Overview Study, Integrated Area Study and various supply, demand and facility planning studies. He has prior retail water experience with the City of Ontario and the Yorba Linda Water District as a Project Manager for capital improvements. As a consultant, he worked with Tetra Tech in Pasadena where his experience included facility design, hydraulic modeling and master planning.

A resident of Whittier, Mr. Ochoa is a member of the American Society of Civil Engineers (ASCE) and has worked as a volunteer with Habitat for Humanity in Tijuana, and is co-founder and board member of the Annual Breast Cancer Run (ABC Run) in Whittier. He also works with local schools doing tutoring and career awareness events.

Founded in 1956, The Jurupa Community Services District (JCSD) is a public agency known as a Special District, governed by a five-member, elected, Board of Directors. JCSD is responsible for providing water, sewer and street lights for over 91,000 people and for maintaining more than 160 acres of parks and over 25 miles of frontage landscape in an unincorporated, 48-square-mile region of western Riverside County. For more information, visit the web site at www.jcsd.us.
