**JURUPA COMMUNITY SERVICES DISTRICT
BOARD CONTINUES SUPPORT FOR WATER EFFICIENT PRACTICES**

JURUPA VALLEY, CA – On July 24, the Jurupa Community Services District Board of Directors unanimously approved remaining at Level 2 of the District’s Water Conservation Program. “Although the drought was officially over on April 7, the Inland Empire is still experiencing “abnormally dry” conditions per the U.S. Drought Monitor. For this reason, water efficient practices will continue to be critical to prepare for future dry years. JCSD customers have reduced water usage month after month, including during hot weather, and are encouraged to keep up the good work,” said General Manager Todd Corbin.

The Board of Directors’ decision to remain at Level 2 is in response to impending state legislation; *Making Water Conservation a California Way of Life*, which will provide a framework for future conservation efforts beginning in early 2018.

JCSD customers must continue to follow mandatory year-round water-use conservation practices. They include but are not limited to:

- Irrigate only between 8 p.m. – 8 a.m. for no more than ten minutes per day per station
- Limit irrigation to no more than 4 days per week
- Eliminate irrigation run-off
- No irrigation during and within 48 hours of rain

- Repair all leaks
- Use a shutoff nozzle to wash vehicles
- No hosing down of driveways, sidewalks, or other hard surfaces

JCSD will continue to enforce these measures to eliminate water waste and provide programs, services, and assist customers to use water efficiently. For more information about conservation programs, rebates, water-use tips, landscaping and classes, visit our website at www.jcsd.us or call (951) 727-3521.

About JCSD

Founded in 1956, the Jurupa Community Services District is a public agency known as a Special District, governed by a five-member, elected, Board of Directors. JCSD serves over 120,000 people in a 40-square-mile region of western Riverside County in the newly-incorporated cities of Jurupa Valley and Eastvale by providing a variety of critical services such as water, sewer, street lights, frontage landscape maintenance, and graffiti abatement. JCSD is also responsible for parks maintenance and recreation programming within the JCSD parks territory.
