Re: SAWPA/DWR Prop 1 Integrated Regional Water Management (IRWM) Implementation  
Funding Opportunity and Support for IEUA/JCSD Recycled Water Intertie Project

Dear SAWPA Selection Committee:

Jurupa Community Services District (JCSD) is pleased to support the Inland Empire Utilities Agency (IEUA) in its submission of a grant application to Santa Ana Watershed Project Authority for Prop 1 IRWM Implementation funding.

JCSD is particularly supportive of the joint IEUA/JCSD Recycled Water Intertie project as it will address both local and regional needs by diverting recycled water from the Western Riverside County Regional Wastewater Authority treatment facility to IEUA for reuse and replenishment of the Chino Basin, thus contributing to the long-term reliability and resiliency of local water supplies. Major benefits of the project include:

- New local water supply (recycled water)
- Interagency connection between JCSD and IEUA expands potential use and benefits
- Groundwater recharge improves the quality and storage of the Chino Basin aquifer
- Drought-resilient supply; Recycled water supply is not directly impacted by drought and could help mitigate the impacts of regional or statewide water supply limitations
- Regional sustainability; Increases local water supply reliability and decreases water imports from the Sacramento Bay Delta.

JCSD is excited to be a part of this important program and we look forward to providing assistance to IEUA's staff in gathering and developing the grant's required reporting documents to monitor the project's performance measures.

Sincerely,

A handwritten signature in black ink that reads "Steven Popelar".

Steven Popelar  
Director of Finance and Administration
