

## RESOLUTION NO. 3192

### RESOLUTION OF THE BOARD OF DIRECTORS OF THE JURUPA COMMUNITY SERVICES DISTRICT IN SUPPORT OF A WATER SUPPLY ALERT DUE TO SEVERE DROUGHT CONDITIONS

**WHEREAS**, the Jurupa Community Services District (the "District") is responsible for providing safe and reliable water services to over 130,000 customers in the Cities of Eastvale and Jurupa Valley; and

**WHEREAS**, warm temperatures and extremely dry soils have depleted the expected runoff from the Upper Colorado River Basin snowpack and Northern Sierra snowpack into reservoirs; and

**WHEREAS**, since July 1, 2021, City of Eastvale has received only .34 inches of rain and City of Jurupa Valley has received only .28 inches of rain; and

**WHEREAS**, California is facing a second consecutive year of drought conditions, with western Riverside County experiencing "severe" drought conditions; and

**WHEREAS**, the District relies on local groundwater stored naturally in underground aquifers, which can potentially see levels drop during prolonged drought conditions; and

**WHEREAS**, on April 21, May 10, and July 8, 2021, Governor Newsom issued proclamations that a state of emergency exists in a total of 50 of 58 counties in California due to severe drought conditions; and

**WHEREAS**, Governor Newsom issued Executive Order No. N-10-21 on July 8, 2021, which calls on all Californians to voluntarily reduce their water use by 15 percent from 2020 levels; and

**WHEREAS**, on August 17, 2021, the Metropolitan Water District of Southern California issued a Condition 2 – Water Supply Alert, calling on its member agencies, cities, and counties to implement voluntary conservation measures that support reducing water use; and

**WHEREAS**, conservation measures help preserve ground water reserves that help maintain a reliable water supply in the event that severe drought conditions continue throughout 2022.

**NOW THEREFORE, BE IT RESOLVED** by the Board of Directors of the Jurupa Community Services District that it supports Metropolitan Water District of Southern California's Water Supply Alert condition; and

**BE IT FURTHER RESOLVED**, that Jurupa Community Services District encourages its customers to voluntarily reduce their use of water by 15 percent, take advantage of conservation rebate programs, and implement water use efficiency measures.

**ADOPTED** this 11th day of October 2021.
