

Pyrite Creek Sewer Bond Projects:

Reinvesting in Our Community and Improving Critical Infrastructure

As part of our ongoing commitment to provide quality service, Jurupa Community Services District (JCSD) will continue a series of capital improvement projects within our service area in Jurupa Valley. The Pyrite Creek Sewer Bond Projects will include major construction in order to upgrade or improve the community's sewer system infrastructure and will be completed in two phases. Both phases will affect traffic. Our goal is to continually provide updated information to help you plan your travels around the affected areas.

PHASE 1 Involves Traffic Lane Control

The first phase includes a waterline relocation and involves traffic lane control along **Limonite Avenue in Jurupa Valley between Bain Street and Beach Street** and is expected to last for approximately two weeks. **Limonite Avenue will remain open during Phase 1.** This portion of the project will start in early 2013. Please be prepared for slight delays when traveling in the area of the improvement project.

PHASE 2 Involves A ROAD CLOSURE

JCSD has been working closely with several agencies to minimize the traffic impact to the community for the major portion of this project. The most effective way to construct the Pyrite Creek Trunk collection sewer and regional force main sewer lines requires a **5-week closure of Limonite Avenue in Jurupa Valley between Bain Street and Beach Street.** This portion of Limonite Avenue will be closed to through traffic during Phase 2 only (please see detour map below) and will take place between May 28, 2013 and July 2, 2013. These dates were selected to coincide with the summer break schedule of local schools.

Stay Informed And Be Prepared

JCSD has developed a comprehensive communication and outreach plan to keep the community informed about the Pyrite Creek Sewer Bond Projects.

We are working closely with the City of Jurupa Valley, along with numerous community organizations, to ensure that residents, businesses, local agencies, commuters, and visitors are informed about these capital improvement projects.

Information about these improvement projects and other JCSD news are available through our website and social media. Be sure to stay informed so you can plan ahead and factor traffic delays as you drive in the vicinity of these project areas. Please follow us on:

- Twitter: @JCSDTweets
- Facebook: www.facebook.com/JCSDDistrict
- YouTube: www.youtube.com/jcsdvideos
- JCSD website: www.jcsd.us

If you have any questions about the Pyrite Creek Sewer Bond Projects, please call JCSD's Community Affairs Officer at (951) 727-8002.

**Designated Detour for PHASE 2
Limonite Avenue Closure*
Between Bain Street and Beach Street
May 28, 2013 - July 2, 2013**

*Limonite Avenue will remain open during PHASE 1 of the project.

Delivering Quality Water and Reliable Sewer Services to Our Customers

It would be difficult to imagine our daily lives without the convenience of quality water and reliable sewer system services. We need both critical services for common activities such as bathing, brushing our teeth, cooking, and cleaning. Only tap water delivers public health protection, fire protection, and enhances the quality of life.

JCSD has a complex system designed to make sure there is a sufficient supply of safe water and a dependable sewer system to help dispose of wastewater for a community

JCSD WATER FACILITIES BY THE NUMBERS

- 23** wells
- 16** water storage reservoirs
- 7** booster stations
- 12** pressure reducing stations
- 3** nitrate blend points
- 39** sample stations
- 403** miles of potable water lines

Well 23 is located at JCSD's main facility on Harrel Street. The well was drilled in 2004 and produces 3505 gallons of water per minute.

of over 107,000 people within a 48-square mile area.

What does it take to deliver water and sewer services? Here are just a few items to consider to help you understand the value of water and sewer services:

💧 **TREATMENT** Groundwater, which is our area's source for providing potable water, goes through complex treatment process before it is delivered to our customers for consumption. Wastewater must also be treated in order for it to be disposed of properly or reused for irrigation.

💧 **INFRASTRUCTURE** An important component of the service we provide involves the mechanisms for treating and delivering water to our customers and transporting wastewater from our customers. In addition to pipes, the repair, replacement, or upgrade of pumps, equipment, and other facilities are required to provide these critical services.

💧 **ELECTRICITY** While we try our best to take advantage of gravity for providing our services, we still need electricity to transport water and wastewater to their various destinations. The cost of electricity directly affects the cost of water and sewer services.

As part of JCSD's water and sewer services, customers have a team of highly-trained staff who are always working on treating, testing, maintaining, and delivering these valuable services.

SAVE THE DATES
for the following events:

Water is Life Poster Contest

In partnership with Metropolitan Water District of Southern California (MWD), JCSD sponsors the "Water is Life" poster contest each year to encourage conservation, recycling, and water education. This year, the contest is open to K-12th grade students enrolled in Jurupa Unified School District and Corona-Norco Unified School District schools within the JCSD service territory. For information, please contact us by calling (951) 727-3521 or e-mailing savewater@jcsd.us.

Learn how to design and install your own California-Friendly landscape at JCSD's FREE landscape seminars. You can attend one or both classes (different topics will be covered at each seminar).

Water Wise Garden Seminar

- Date: Saturday, March 16, and Saturday, March 23
 Time: 9:30 a.m. - 3:30 p.m. (Lunch will be provided)
 Location: JCSD, 11201 Harrel St., Jurupa Valley
 Class Topics: - Designing outdoor rooms
 - Selecting and maintaining plants
 - Installing the right irrigation system for your yard

Space is limited. RSVP by email to savewater@jcsd.us or call 951-727-3521.

Saturday, April 13, 2013
 Jurupa Community Services District
 11201 Harrel Street, Jurupa Valley
 More Details Coming Soon

A few features of the event:

Water Wise Gardening Display

Display of 2013 Poster Contest Entries

Tour Your Water Treatment Facility

Information/vendor booths and much more!

Water Wise Plant Sale

Saturday, April 20
 Eastvale Home Depot, 6140 Hamner Avenue

In partnership with Home Depot and the Inland Empire Garden program, JCSD's Conservation Coordinator and other water-wise experts will be at the plant sale to provide helpful water efficiency use information.

JCSD works closely with the Chamber of Commerce and cities of Jurupa Valley and Eastvale. As a result, we will include information about the programs and services provided by the cities and Chamber of Commerce that serve our customers within JCSD's service territory. For more information about the programs and services listed below, please contact each organization directly.

Jurupa Valley

City of Jurupa Valley

Did you know that you can use the Jurupa Valley website to submit any question or comment 24 hours a day, seven days a week? The City welcomes your inquiries and is open to listen to your concerns and comments.

Visit their website at www.jurupavalley.org and click on CITY SERVICES and REQUESTS on the left navigation menu. For more information, please call the City of Jurupa Valley at (951) 332-6464.

Jurupa Valley Chamber of Commerce

The Jurupa Valley Chamber of Commerce office is now open. Everyone is invited to stop by:

Jurupa Valley Chamber of Commerce Office
7920 Limonite Avenue, Suite B (near Kmart)
Office Hours: Monday - Friday, 10 a.m. - 2 p.m.

For more information about the Jurupa Valley Chamber of Commerce, please call (951) 681-9242 or visit www.jurupachamber.org.

Eastvale

City of Eastvale

If you need assistance with services and programs provided by the City of Eastvale, there are several ways to contact them. You can stop by their office or call them during regular business hours. They have a number of on line services available through their website, www.eastvalecity.org. For more information please call the Eastvale City Hall at (951) 361-0900.

Eastvale City Hall
12363 Limonite Avenue, Suite 910

- Regular business hours are Monday - Thursday, 7:30 a.m. - 5:30 p.m. Closed every Friday.
- Building and Safety Permit counter hours are Monday - Thursday 8 a.m. to 12 p.m.
- The Planning Department is open Tuesday AND Thursday from 8 a.m. to 5:30 p.m.

Eastvale Chamber of Commerce

The Eastvale Chamber of Commerce provides networking and business development opportunities for its members.

Sign up to be a member today! Visit their website at <http://www.eastvalechamberofcommerce.com> to learn more about becoming a member. You can also sign up to receive their on line newsletter.

Healthy Eastvale

We're here to help you achieve your health and fitness New Year's resolutions! The JCSD Parks and Recreation Department offers various opportunities to embrace a healthy lifestyle. For more information, please contact the Parks and Recreation Department at (951) 727-3524 or visit their website at www.parks.jcsd.us. You can also stop by the Eastvale Community Center located at 13820 Schleisman Road, Eastvale. The community center's hours are:

Monday – Friday: 8 a.m. – 10 p.m.
Saturday: 8 a.m. – 8 p.m.
Sunday: 10 a.m. – 6 p.m.

Try Something New
Street Striders

Register for various adult fitness programs such as Boot Camp, Zumba, Yoga, Martial Arts, Dance, TurboKick, and more!

Healthy Eating Workshops and Cooking Classes

We offer fitness classes designed with mature adults in mind! You can register online or in person at the Eastvale Community Center.

JCSD Parks and Recreation offers fitness programs that are fun and creative just for kids!

Pictured above is just a fraction of the trash that is collected at the wastewater treatment facility that serves JCSD customers. The cost of sewer services includes the treatment of wastewater and the disposal of the tons of debris that make its way through the sewer system.

Just Because the Label Says "Flushable" it Doesn't Mean it Should be Flushed

While there are numerous products labeled as flushable, they really aren't safe for any sewer system and can cause blockages and backups. More and more wastewater treatment facilities are experiencing an increase in the amount of non-biodegradable items, especially disposable wipes, that are clogging up pipes and causing costly problems. They do not degrade as readily as toilet paper.

There are only three items that should be flushed down the toilet - water, toilet paper, and human waste. Everything else goes in the trash. An important thing to keep in mind - items that are flushed down the toilet are still being hauled away to landfills. Skip the step

of flushing trash and place it directly in a trash bin. This also reduces the chances of a backup or blockage. Items such as Q-tips, feminine hygiene products, cloth bandages, rags, disposable diapers, dental floss and other items that go through the sewer system each day may also get caught on tree roots that have intruded sewer lines.

These products, when routinely disposed of through the toilet, can also become lodged in sewer pumps and other equipment used to transport wastewater. This can cause damage that requires immediate repair, additional maintenance, and added costs.

JCSD is asking all customers to toss trash into garbage cans and not down the drain or toilet.
