Jurupa Community Services District Hosts Riverside County Supervisor Jose Medina for Official Visit

Jurupa Valley, CA **(November 5, 2026) –** Jurupa Community Services District (JCSD) recently welcomed Riverside County Supervisor Jose Medina for an official visit highlighting the District's critical water infrastructure, ongoing investments in water quality, and regional partnerships that strengthen water reliability and emergency preparedness.

During the visit, Supervisor Medina received a comprehensive briefing from JCSD leadership on the District's operations, infrastructure priorities, and initiatives to address emerging challenges facing water providers throughout Southern California.

Following the briefing, Supervisor Medina toured several key facilities, including the Chino Basin Desalter Authority's Treatment Plant, operated by JCSD, and the District's Teagarden Ion Exchange Treatment Plant.

Both facilities play important roles in supporting regional water quality and reliability, including efforts to address groundwater contamination and ensure the continued delivery of safe drinking water.

The visit also included a visit to JCSD's innovative Heli-Hydrant, which provides firefighting helicopters with rapid access to water during wildfire emergencies. The JCSD Heli-Hydrant Program has received $750,000 in funding support through the Riverside County Flood Control and Water Conservation District, reflecting a shared commitment to strengthening regional wildfire response capabilities.

“Strong partnerships with our County leaders are essential to addressing the complex challenges facing water agencies and the communities we serve,” said JCSD Board Director Betty Folsom. “We appreciate Supervisor Medina's interest in our operations and the County's investment in innovative programs like our Heli-Hydrant, which help protect our communities while strengthening regional emergency preparedness.”

“Reliable water infrastructure is essential to public health, economic stability, and the safety of our communities,” said Riverside County Supervisor Jose Medina. “I appreciate the opportunity to see firsthand the important work JCSD is doing to protect our water resources and strengthen emergency preparedness. These investments demonstrate the value of collaboration between Riverside County and local agencies to better serve our residents.”

The visit underscored the importance of continued collaboration between JCSD and the County to advance infrastructure investments, address regional water challenges, and support innovative solutions that benefit residents throughout the region.

Founded in 1956, the Jurupa Community Services District is a public agency providing services and programs to Jurupa Valley and Eastvale. It is governed by a Board of Directors comprised of five elected representatives from both cities. Serving over 135,000 people in a 40-square-mile area, JCSD provides a variety of community services and programs, including water, sewer, streetlights, frontage landscape maintenance, graffiti abatement, and parks and recreation services.
